Hi Chris--

See my comments attached for both the draft Landslide and Roads rationales. I made my landslide comments on top of Jayne's and also merged in Teresa's since I had a few comments to add to their changes.

The style of the landslide rationale is good but I think the roads rationale needs to be revamped some to better match the style used for our other rationales--landslides as well as what Don has drafted for new devel and OSDS. I provided some suggestions of how the roads rationale could be revised to fit with the others better.

If you have any questions, please let me know.

Cheers,
Allison
